PROFESSIONAL SUMMARY

Cybersecurity undergraduate pursuing B.E. Computer Science & Engineering (Cyber Security) with strong foundations in network security, web security, digital forensics and Linux. Active Capture The Flag (CTF) competitor with proven analytical and problem-solving skills, including 2nd Place at PECCTF and multiple Top 10 finishes. Currently developing a PC keyboard autocorrector inspired by Google's autocorrection keyboard, and seeking SOC Analyst, VAPT and Cybersecurity Internship opportunities.

EDUCATION

PSNA College of Engineering and Technology
B.E. CSE (Cyber Security)
CGPA: 7.96/10

Class XII: 80%
Class X: 78%

TECHNICAL SKILLS

Languages: Python, C, Java, SQL, Bash, JavaScript, HTML/CSS

Cybersecurity: Network Security, Digital Forensics, Web Security, Cryptography, OSINT, CTF

Tools: Kali Linux, Nmap, Wireshark, Burp Suite, Metasploit, Ghidra

PROJECTS

PC Keyboard Autocorrector (Ongoing)

- Building a system-wide keyboard autocorrector for PC, inspired by Google's autocorrection keyboard.
- Detecting and correcting typing errors in real time as the user types.
- Exploring word-prediction and suggestion logic to improve typing accuracy and speed.

D1G UR P4SSWD - Account Security Checker (CLI Tool)

- Built a zero-dependency Python CLI tool to help determine if an account is likely hacked or compromised.
- Combines breach-exposure checks with password strength scoring and a guided self-diagnosis questionnaire.
- Designed with no external libraries, using only the Python standard library.

CTF-Solver - Offline CTF Toolkit

- Developed a single-file Python toolkit for Capture The Flag challenges.
- Covers encoding/decoding, cryptography, steganography, digital forensics, web exploitation, and reverse engineering.
- Packaged with an installer and documentation (README) for offline use.

Personal Portfolio & Blog Website

- Built a personal portfolio and blog site from scratch using HTML, CSS, and JavaScript.
- Showcases CTF achievements, technical skills, and social profiles with interactive features (mobile nav, scroll-spy, scroll-reveal animations).

CERTIFICATIONS

- Google AI Essentials
- Google Prompting Essentials
- IBM Introduction to Data Analytics
- IBM Excel Basics for Data Analysis

ACHIEVEMENTS

- 2nd Place – PECCTF (Panimalar Engineering College).
- Multiple Top 10 finishes in Capture The Flag (CTF) competitions.
- Cybersecurity enthusiast with continuous hands-on learning through CTFs.
